RE: Phthalates - Bapolene 0760 – **CONFIDENTIAL**

Dear Ms. Barbosa,

In response to your inquiry regarding prime high density polyethylene grade, *Bapolene 0760*, please be advised that, as manufactured and shipped you your company, and to the best of our knowledge, **phthalates** are not intentionally used, as additives, raw materials, or impurities in raw materials, during the polymerization or formulation processes,

Therefore, are not expected to be present in this product. However, please be advised that we do not specifically analyze for these substances.

As always, we cannot be held responsible for any type of modification of *Bapolene 0760* by any addition or conversion process(-es), packaging materials (or their components), or inadequate use and/or storage of our material or the finished products by the end user. It is the responsibility of the customer to determine that all conditions and specifications contained in all pertinent regulatory categories are met, and that the products or articles produced from this material are acceptable and suitable for use in the intended applications.

We hope the aforementioned addresses your concerns. As always, if we can be of further assistance or need additional information, please do not hesitate to let us know.

Sincerely yours,

Mario Umana
Bamberger Polymers
