To Our Valued Customers:

Due to recent events in the news, we feel it is necessary to reassure our valued customers of our guarantee that all of our *Krazy Straw®* products comply with required U.S. and European safety standards. *Krazy Straws®* and *Krazy Straw® Drinkware* containers have been thoroughly safety tested by independent testing labs and meet or exceed Federal Safety requirements for lead and other banned substances.

Krazy Straws® and *Krazy Straw® Drinkware* containers are manufactured in our own 55,000 square foot factory in North America (Mexico), using only U.S. virgin, food-grade raw materials, ensuring the highest quality and safest product available.

The method of decorating our drinking straws and cups does not rely on the use of any paints or secondary processes but rather, a patented procedure of utilizing food grade colorants within the plastic. Additionally, our suppliers have reconfirmed with us their commitment to comply with our high safety standards and those required by law, making certain that we continue to provide the best and safest *Krazy Straw®* products available to all of our customers worldwide.

With Regards,

Stephanie Shepard-Lipson
VP Fun-Time International Inc.
